Sneeze Screen

- Low cost flat panel sneeze screen supplied as a flat pack kit
- Keep cashiers and customers safer at the checkout
- Free standing or fixed base design and central payment hatch

DESCRIPTION

What is a Flat Pack Sneeze Screen?

This low-cost sneeze screen is designed to be placed between the customer and the staff to help keep them safer when at the checkout. This sneeze guard is supplied as a self-assembly flat-pack kit and is made from crystal clear 3mm high-impact PETG with rounded and polished edges for extra safety.

How big is this sneeze screen?

This portable sneeze screen is 900mm x 750mm and has a 300mm x 150mm port in the front to let you take cash payments or pass the customer a handheld chip and pin card terminal. It can be folded away when not in use. Other sizes can be made to measure.

How do I install this hygienic sneeze guard?

The Flat Pack Sneeze Screen can be assembled as a free-standing unit using the two slotted legs provided or can be permanently secured in place adhesive foam pads or screwed down using the pre-drilled holes in the base feet.

Counter Hygiene Screen - linkable

- Large counter standing sneeze screen to help protect staff and customers
- Help protect staff and customers and limit the spread of infection
- Several sneeze screens can be used side by side to cover larger counters

DESCRIPTION

What is a Counter Standing Acrylic Hygiene Screen?

Our Counter Standing Acrylic Hygiene Screen is a stylish aluminium and acrylic panel designed to be used on counters and reception desks to help keep staff and customers better shielded from germs. An adjustable gap at the bottom of the screen allows documents or payments to be exchanged.

How large is this hygiene screen?

Each hygiene screen stands 1 m high and measures 80cm wide. The unit is designed to allow you to use several screens alongside each other to cover larger desks or counters.

How do I install this sneeze screen?

This counter standing hygiene screen is designed to be screwed to the countertop. The feet are 30cm to give it plenty of stability. The height of the sneeze screen can be moved up or down to change the size of the payment exchange gap at the bottom.

SPECIFICATIONS

Total height	1000m
Total width	800mm
Base width	300mm
Frame material	Anodised aluminium
Screen material	4mm acrylic
Weight	5.9kg
Countertop fixing method	Screws

Suitable for side by side use	Yes

- Counter standing wraparound sneeze guard with front payment slot
- Angled sides protect the cashier better than a flat sneeze screen
- Single piece angled sneeze screen for extra strength and quick installation

Counter Wraparound Sneeze Guard

DESCRIPTION

What is the Counter Standing Wraparound Sneeze Guard?

The Counter Standing Wraparound Sneeze Guard is made from a single sheet of high-impact PETG and features angled sides to better protect staff and customers when checking out. When installed at the checkout, this screen provides extra protection from germs and allows customers to make payment by cash or a chip and pin terminal, using the payment area at the bottom. Made from high-quality 3mm PETG, this sneeze guard features rounded corners and has smooth polished edges for extra safety.

What size is this sneeze guard?

This sneeze screen has a total size of around 810mm wide and 750mm high. The front panel is 500mm wide and 750mm tall, while the angled sides are 200mm wide and lean back at 35 degrees to provide additional protection and more space for staff. The payment slot is 300mm wide and 150mm high.

How can I install this angled sneeze screen?

The base of the Counter Standing Wraparound Sneeze Guard has pre-drilled tabs on each side to add stability. All you need to install the sneeze guard is screw it into place using your own screws or secure it with a strong double-sided adhesive tape.

Freestanding Hand Sanitiser Dispenser

- Freestanding Hand Sanitiser Dispenser with A4 snap frame
- Protect staff and customers by encouraging hand sanitising
- Eye-catching hand sanitising station with stylish poster frame

DESCRIPTION

What is a Freestanding Hand Sanitiser Dispenser?

This Freestanding Hand Sanitiser Dispenser lets you promote better hygiene to staff or customers by encouraging them to sanitise their hands more often. Standing around 185cm/6' in height, this tall and eye-catching unit features a stylish aluminium poster frame and a pump-action hand sanitiser unit with a one-litre capacity.

How does the hand sanitising station work?

The hand sanitising station includes a 1-litre bottle for you to fill with your chosen hand sanitising solution. You can pour in any gel-based product of your choice, whether it's a liquid soap or an alcohol hand gel. Pressing the lever on the top dispenses the gel, while a tray at the base catches any drips. The bottle is quick and easy to refill.

Yes, both the hand sanitiser dispenser and the poster frame can be positioned at your chosen height by moving them up or down the pole and tightening the screw to hold them in place. The poster frame includes a snap-shut mechanism making it very quick and easy to change the poster.

SPECIFICATIONS

Sanitary Door Opener

This product that fits on the bathroom door allowing you to open the door without your hands, simply hook your arm through the large hook and pull the door open.

You actually open the door with your arm, putting you at ease when using a public restroom while at the same time eliminating hand-to-hand diseases and paper towels from being used to open the door and thrown all over the floor.

Foot Pull Door Opener

This new product fits on the bottom corner of a bathroom door allowing you to open the door without your hands! That's right, no hands!

You actually open the door with your foot. The Foot Pull Door Opener puts ease in consumers minds when using a public restroom while at the same time eliminating hand-to-hand diseases and paper towels from being used to open the door.
